Medicare 2008 Physician Fee Schedule Revision

In the previous end of the year update for INCISIVE MD, we included the Medicare 2008 Physician Fee Schedule released on 1 November 2007 and available on the Centers for Medicare & Medicaid Services (CMS) website on 20 December 2007. On 3 January 2008, CMS revised the 2008 Medicare fee schedule based upon a continuing resolution passed by Congress after their Holiday recess. Most significantly, Congress increased the conversion factor rate to \$38.0870 for the next 6 months.

This update revises INCISIVE MD for the latest Medicare conversion factor rate and changes to both Medicare's Payment Policy Indicators and Geographic Practice Cost Index (GPCI).
